

Book Chapters

1.Sutherland, B.M., A.D. Blackett, N.I. Feng, S.E. Freeman, E.S. Ogut, R.W. Gange, and J.C. Sutherland. (1985) Photoreactivation and Other Ultraviolet/Visible Light Effects on DNA in Human Skin. *Annals of the New York Academy of Sciences* **43**,73-79.

1.Sutherland, B.M., R.W. Gange, S.E. Freeman and J.C. Sutherland. (1989) DNA Damage and Repair in Human Skin *In situ.*, Edited by A. Castellani, ENEA "DNA Damage and Repair" Plenum Publishing Corporation, New York, NY

1.Freeman, S.E., B.A. Thompson, G.M. Malvin, C.L.K. Sabourin, S.A. Barker, Y.J. Ballam, J.R. Martinez (1990) Applications of Video Imaging Techniques in Molecular Biology and Microscopy. *in Noninvasive Techniques in Biology and Medicine* (S.E. Freeman, E. Fukushima and E.R. Greene, eds) San Francisco Press Inc. pp. 185-193.

1.Freeman, S.E. (1990) Variability in DNA Repair in Human Skin *in DNA Damage and Repair in Human Tissues* (B.M. Sutherland and A. Woodhead, eds.) Plenum Press Publishing Co. pp 117-125.

Journal Publications

1.Freeman, S.E. (1983) Replication and Repair of DNA in Human Peripheral Lymphocytes Damaged by Ultraviolet Radiation: Alterations Induced by Carcinogens, Drugs, and Interferon, Ph.D. Thesis, Clemson University, Clemson, SC.

1.Freeman, S.E. and L.L. Larcom (1983) Inhibition of Unscheduled DNA Synthesis in Human Lymphocytes by Chemical Carcinogens. *Chemico-Biological Interactions*, **46**,85-100.

1.Smith, M.E., L.L. Larcom and S.E. Freeman (1985) Serum Effects on DNA Repair in Human Cells. *Chemico-Biological Interactions* **54**,325-335.

1.Freeman, S.E., R.W. Gange, E.A. Matzinger and B.M. Sutherland (1986) Higher Pyrimidine Yield in Skin of Normal Humans with Higher UV-B Sensitivity. *J. Investigative Dermatology* **86**,34-36.

1.Freeman, S.E., A.D. Blackett, D.C. Monteleone, R.B. Setlow, B.M. Sutherland and J.C. Sutherland (1986) Quantitation of Radiation-, Chemical- or Enzyme-Induced Single Strand Breaks in Non-Radioactive DNA by Alkaline Gel Electrophoresis: Application to Pyrimidine Dimers. *Analytical Biochemistry*, **158**,119-129.

1.Freeman, S.E., R.W. Gange, J.C. Sutherland, E.A. Matzinger and B.M. Sutherland (1987) Production of Pyrimidine Dimers in DNA of Human Skin Exposed *in situ* to UVA Radiation. *J. Investigative Dermatology* **88**,430-433.

1.Freeman, S.E., R.W. Gange, J.C. Sutherland and B.M. Sutherland (1987) Pyrimidine Dimer Formation in Human Skin. *Photochemistry and Photobiology* **46**,207-212.

1.Freeman, S.E., L.A. Applegate, R.D. Ley (1988) Excision Repair of UVR-Induced Pyrimidine Dimers in Corneal DNA. *Photochemistry and Photobiology* **47**,159-163.

1.Ley, R.D., L.A. Applegate, S.E. Freeman. (1988) Photorepair of Ultraviolet Radiation-Induced Pyrimidine Dimers in Corneal DNA. *Mutation Research* **194**,49-55.

1.Freeman, S.E., B.D. Thompson (1988) Evaluation of Densitometry Data Using Interactive Computer Graphics: Application to DNA Agarose Gels. *International Journal of Biomedical Computing*. **22**,121-133.

1.Freeman, S.E. (1988) Excision Repair of Pyrimidine Dimers in Human Peripheral Blood Lymphocytes: Comparison Between Mitogen Stimulated and Unstimulated Cells. *Mutation Research*. **194**,143-150.

1.Freeman, S.E. (1988) Variations in Excision Repair of UVB-Induced Pyrimidine Dimers in DNA of Human Skin In situ. *J. Investigative Dermatology* **90**,814-817.

1.Freeman, S.E., R.D. Ley and K.D. Ley. (1988) Chemical Sunscreen Protection Against UV-Induced Pyrimidine Dimers in DNA of Human Skin In Situ. *Photodermatology* **5**,243-247.

1.Freeman, S.E., H. Hacham, R.W. Gange, D.J. Maytum, J.C. Sutherland and B.M. Sutherland (1989) Wavelength Dependence of Pyrimidine Dimer Formation in DNA of Human Skin Irradiated In situ with Ultraviolet Light. *Proc. Natl. Acad. of Sci. U.S.A.* **86**,5605-5609.

1.Freeman, S.E. and B.D. Thompson (1990) Comparative Analysis of Video and Photographic Densitometry: Quantitation of Ultraviolet Radiation Induced Cyclobutyl Pyrimidine Dimers in DNA Using Alkaline Agarose Gel Electrophoresis. *Analytical Biochem.* **186**,222-228.

1.Freeman, S.E. and S.L. Ryan (1990) Wavelength Dependence for UV-Induced Pyrimidine Dimer Formation in DNA of Human Peripheral Blood Lymphocytes. *Mutation Res.* **235**,181-186.

1.Hacham, H., S.E. Freeman, R.W. Gange, D.J. Maytum, J.C. Sutherland and B.M. Sutherland (1990) Do Erythemogenic Exposure to 385 or 405 nm Induced Pyrimidine Dimers in DNA of Human Skin Irradiated In situ? *J. Investigative Dermatology* **52**,893-896.

1.Freeman, S.E. and R.D., Ley (1990) Action Spectrum for the Induction of Pyrimidine Dimers in DNA of UV-irradiated Human Skin: Variations Detected in Individuals of Different Skin Types. *Trends in Photochemistry and Photobiology* **1**,31-38.

1. Freeman, S.E., L.L. Larcom and B.D. Thompson (1990) Electrophoretic Separation of Nucleic Acids: Evaluation by Video and Photographic Densitometry. *Electrophoresis* **11**,425-431.

1. Alcalay, J.A., S.E. Freeman, L.H. Goldberg, and J.E. Wolf (1990) Excision Repair of Pyrimidine Dimers Induced by Simulated Solar Radiation in Skin of Patients with Basal Cell Carcinoma. *J. Investigative Dermatology*. **95**,506-509.

1. Hacham, H., S.E. Freeman, R.W. Gange, D.J. Maytum, J.C. Sutherland, and B.M. Sutherland (1990) Does Exposure of Human Skin in situ to 305 or 405 nm UV Induce Pyrimidine Dimers in DNA? *Photochem. Photobiol.* **52**,893-896.

1. Hacham, M., S.E. Freeman, R.W. Gange, D.J. Maytum, J.C. Sutherland and B.M. Sutherland (1991) Do Pyrimidine Dimer Yields Correlate With Erythema Induction in Human Skin Irradiated in situ With Ultraviolet Light (275-365 nm)? *Photochem. Photobiol.* **53**,559-63.

1. Rimoldi, D., A.C. Miller, S.E. Freeman, D. Samid (1991) DNA Damage in cultured Human Skin Fibroblasts Exposed to Excimer Laser Radiation. *J. Investigative Dermatology* **96**,898-902.
